### Exam Tips Before the Final Examination Period Begins

1. It is extremely important that you test the examination software “Exemplify” on your computer before you sit for your exams. This will help to significantly reduce any chance of you having a problem in the examination room. The test file recommended is named Exemplify\_2017-2018. **The passcode for Exemplify\_2017-2018 is 1234567.** One of the best ways to test your computer is to type a paragraph in Exemplify, copy the paragraph and then paste it many times in succession. This will stress your computer beyond the typical typing speed. If you don’t have any problems, then you are successful. If you have a problem, please contact the Helpdesk in the Computer Resource Center, which is located on the second floor of the Rains Library.
2. Download your examination answer files as soon as they are ready. Don’t wait until the day of the exam as you will need an internet connect to download the examination answer files. We will notify you as soon as they are available for download.
3. If you are using Exemplify to complete a take home final examination, plan you time wisely because the clock on your take home examination will continue even if you use Exemplify to take a different exam before completing and uploading your take home examination.
