

# ExamSoft for the State Bar of California

As you can see below the login page for the State Bar of California is very similar to that of the Law School's. Login credentials will be included in the admittance tickets sent to you by the bar. To be sure you are accessing the correct login page; look for the "State Bar of California" at the top off the screen.

Because you can complete the laptop certification process **ONE TIME ONLY**, be sure that you select a reliable computer for your examinations.

To download, register, test and certify your software, [access ExamSoft for the State Bar of California](https://www.examssoft.com/dotnet/Default.aspx?f=calbar). If the previous link fails, the URL is: <https://www.examssoft.com/dotnet/Default.aspx?f=calbar>. Again, please do not wait until to set up your computer as July will be here before you know it!

Good Luck,

*The Registrar's Team*
